

## Product Data Sheet

# ATS1811

ATS 8-way clocked relay card

### Product Overview

---

An 8-way clocked relay card ATS1811 provides eight single pole relays with connection terminals to the common (C), normally open (NO), and normally closed (NC) contacts. The relay contacts are rated at 1 Amp @ 0 to 30 VDC; reducing to 300 mA @ 48 VDC. Relay cards can be connected together to provide up to 16 relays when connected to a DGP, 64 relays in a ATS1260 4-lift DGP, or 255 relays when connected to the ATS control panel A LED is provided for every relay to indicate activation.

### Standard Features

---

# ATS1811

ATS 8-way clocked relay card

## Specifications

Supply voltage	10.5 - 13.8 VDC
Operating current	
standby	50 mA
all relays active	250 mA
Dimensions (W x H)	176 x 52 mm
Operating temperature	0° to +50°C
Humidity	95% non condensing

## Ordering Information

Part No.	Description
ATS1811	ATS 8-way clocked relay card
ATS1810	ATS 4-way relay card
ATS1820	ATS 16-way clocked open collector card
ATS1821	ATS 8-way clocked open collector card, dialler interface
