

CLETOP® Series

The assurance and reliability of high quality, born from our know-how of optical connector standardization and compatibility testing.

NTT-AT's CLETOP series was born out of the optical connector standardization and compatibility testing know-how that comes from our company's many years of experience. We also listened to the voices of on location workers so that various devices that support smooth and helpful work are utilized in each part.

CLETOP

A line up of 4 kinds to match different types of optical connectors. Its dustproof shutter allows you to open a new cleaning surface with a one-action lever no matter what working environment you are in.

CLETOP-S

A line up of 2 kinds to match different types of optical connectors. Also equipped with a dustproof shutter, its light touch opening grip allows for even greater ease of use for the operator.

CLETOP Stick

Easily removes contamination on adaptor ferrule end face. With both 2.0mm and 2.0/2.5mm ends, they are ideal for the optical composite connectors (LEMO brand, Tajimi electronics brand, etc.) for video equipment.
