

DGA

Self contained

Range : Digicode®

The original

The DGA self contained keypad, from the Digicode® brand, was engineered to secure your access. The DGA will compliment any audio or video entry system to control the operation and locking of your doors and gates.

Its design and its high resistance to vandalism make it suitable to secure residential as well as industrial sites. The compatibility of the DGA with all CDVI locking devices gives you the flexibility to optimize your security.
